### **Stupid Religions of the World**

### **Volume 1: Christianity**

This book is a rational but satiric look at the gospels. It arose, strangely enough, from creationism. How can anyone believe such nonsense as creationism in the modern era? Heres how: If you are accustomed to believing self-contradictory, pious nonsense in the course of your ostensible spiritual development, creationism would fit right in; it really is not too much of a stretch. The fact is, the Jesus that the creationists worship is a composite mythical figure, of whom one model may well have thought he was the messiah and been crucified under Pontius Pilate; but nearly everything they think they know about him is wrong. This book examines the contradictions, mistranslations, narrative fictional elements, and outright mistakes in the gospels. When youre done reading it, you will realize that creationists not only dont know about biology, but they dont even know about Christianity! From the Virgin Birth to the Resurrection, this book traces the pagan influences, the embellishments, and inventions that emerged from first-century Judaism, and eventually became the four official lives of Jesus, which cannot all be literally true because they contradict each other so much. To grapple with their truth rationally involves grappling with the cultures and theologies of the age, and the literary traditions that produced these stories. The people who wrote them, read them, and listened to them, believed that evil spirits caused illness, that witches should be stoned, and that the Almighty Creator of the Universe once had the hots for a young Jewish girl, whom He impregnated, but didnt enjoy it. This book will guide you through questions you rarely hear asked about the gospels, such as: What happened to Lazarus, after being resurrected? Is he still alive, or was he only raised up temporarily, and doomed to die a second time, which would seem quite unfair to an unbiased

mind. Who was the father of Jesus father Joseph? Was it Jacob, as one gospel says, or was it Heli, like another gospel says? And why does Jesus constantly misquote the Old Testament? Did he think the Pharisees would listen to him if he didnt know what he was talking about? And if Jesus was such a great teacher, how come his disciples never understand him? Isnt that the point of having disciples to make yourself understood to them?
