

In this manga, acclaimed cartoonist Asano tells a complex, oblique tale about how an tense atmosphere, symbolized by proliferating butterflies, lead schoolchildren to “sacrifice” a fellow student, and how that act impacts various characters across two timelines. Fantagraphics is proud to welcome the great Inio Asano (Solanin, What a Wonderful World!) to its acclaimed literary manga line. Even as butterflies ominously proliferate in town, the rumor of a mysterious creature lurking in the tunnel behind the school spreads among the children. When the body of Arie Kimura’s mother is found by this tunnel’s entrance, next to apparently human traces, the legend seems to be confirmed. Is the end of the world coming? In order to appease the wrath of the beast, the children decide to offer it a sacrifice: The unfortunate Arie, whom they believe to be the cause of the curse, is shoved into a well that leads to the Nijigahara tunnel ? an act that in turns pushes Komatsuzaki, the budding thug who has carried a torch for Arie for a while already, entirely over the edge. But this is only the beginning of the complex, challenging, obliquely told Nijigahara Holograph, which takes place in two separate timelines and involves the suicidal Suzuki; Higure, his stalkerish would-be girlfriend; and their teacher Miss Sakaki, whose heavily bandaged face remains a mystery; and many more ? brothers, sisters, parents, co-workers, teachers, aggressors and victims who are all inextricably linked to one another and all will eventually ? ten years later ? have to live with what they’ve done or suffered through. Black & white.
