

# Spin: Taking Your Creativity to the Nth Degree (Semi-Illustrated Edition)

Creativity is a process, not a product. You begin in places you don't understand as beginnings. You circle around, gathering experiences and insights. Over time, you spin: a tale, a product, a satisfying life. Sometimes your outcome is simple enjoyment of the process itself. Sometimes it is the realization of a dream or the building of a business. You decide. Or the structure of your life decides. In Spin: Taking Your Creativity to the Nth Degree, you'll get inside the process of a productivity expert who understands both the mysterious and technical natures of creativity. Lively memoir reveals the mystery, while numerous exercises and helpful lists like 12 Ways of Capturing Creativity on the Go and How to Break Down a Large Creative Idea make creativity something you can decide to structure for specific outcomes. Filled with surprising, thoughtful, often amusing stories, Spin will delightfully give you what you need to take your creativity to the nth degree.
