

## Choose Change...: before Change Chooses You!

You may have heard the old story about the frog. If you put a frog in some cool water, he'll be quite comfortable. If you slowly heat the water, the frog will not jump out, even if the water starts to boil, because during the slow process of bringing it to a boil, the frog adjusts. He will be boiled alive because he has become comfortable with his surroundings. Don't be comfortable. You can change before your crisis becomes too difficult. Don't wait until you are boiled alive! Choose Change Before Change Chooses You! is a simple systematic process to change your life before you are forced to do so by people and circumstances over which you have no control. Most people will not change until it becomes more uncomfortable to be where they are than it is to get where they are going. This is a practical thirteen week process to make living your life what it was meant to be: fulfilling, joyful and on purpose.
