

Jim Woodring's silent, signature character explores the Unifactor's third dimension in this graphic novel. Frank in the 3rd Dimension is a series of Jim Woodring's loveliest pictures ? 32 anecdotal visual vignettes, dioramas, moments pickled in time ? as you've never seen Frank before: in 3-D, about as real as you can get him outside of an Ionescoian theatrical performance (which could be next ? watch your local theater listings). Frank and Frank's world are already hallucinatory, but seeing him in the most technologically advanced and artistically crafted 3-D ever produced?more than 150 layers per drawing in order to round and "sculpt" each image into full, volumetric 3-D ? is an experience that has to be savored to be believed. Two-color anaglyphic artwork throughout.

The lectures of a certain professor, Star Wars Jedi Shaak Ti, Courage!, The Natural History of Immortality: -1891, The a Love Supreme Collection: The Very Best of Issues 1-50, Oppenheim Toy Portfolio: Baby & Toddler Play Book, The Adventures of Jerry the Golf Ball, Fifty Two Steps - Discover the New You: Discover the New You (Volume 1),
