

Our awareness of the universe and our own unique role can be liberating. This book documents many of the personal transforming experiences that have enhanced Dr. Bobs understanding of extraterrestrial visitors, dimensional awareness, and cosmic truth. He utilizes the harmonic rhythm of the universe in his poetry to support the messages in this book and to expand their meaning beyond its pages. A life-altering experience in 1991 empowered him to free earthbound entities, communicate interdimensional reality, and release the creativity innate in his own being. Dr. Bob subtly reveals the Book of Life and the codes for understanding your place in the universe.
