

Intricate Maze of the Universe is the second published book by author Tajeco. His first book, Infinite Floetry, was released in 2001. This new book is a continuation of the first, consisting of poetry, lyrics, observations, social commentary, and imaginative word play. Intricate Maze of the Universe captures the highlights from Tajecos unpublished books #5 through #8, written between January 8, 2001, and July 13, 2008. Tajeco believes we should not distance ourselves mentally or spiritually from other people on this planet, simply because we live in different apartments, houses, towns, cities, states, countries, or continents. Here we are, on our Earth, part of our Suns solar system, in the Milky Way Galaxy, among billions of galaxies in this vast amount of space. Journey into the depths of your mind, and take your time, as you make your way through the Intricate Maze of the Universe.
