

Leading with Compassion: Anchoring Leadership Practices in Prophetic Traditions

Leading with Compassion draws on the prophetic tradition to outline the type of leadership capable of inspiring communities, empowering their members, and developing traditions that encourage cooperation and mutual support and help. While examples and lessons are drawn from the prophetic traditions and the Muslim American community settings, the book endeavors to develop a model of leadership that transcends specific religious practices and geographical communities. It attempts to outline a leadership model uniquely suited for leading community based organizations, and for transforming practices and conditions so as to make them more inspiring and nurturing. So while the primary beneficiaries of the book are North American Muslims, all those whose main concern is to empower their communities and uplift its spirit can potentially benefit from this work.
