

## Love & Rockets Sketchbook Two (Love and Rockets)

A generous collection of funny, sexy and breathtakingly executed drawings from two cartoonists who revolutionized the medium. This fabulous volume includes sketches by Gilbert and Jaime from all stages of their careers. How do they do it? How do Gilbert and Jaime Hernandez keep topping themselves issue after issue, year after year in their award-winning comic Love and Rockets? Answer: Through hard work, constant experimentation, and page after page of diligent sketching. The second volume in the Love and Rockets Sketchbook series is a fascinating look into the work processes of two of comics most talented artists, allowing readers to witness the creative process, from the earliest ideas through roughed-out pages all the way to finished artwork (including several completed sequences that were edited out of continuity, seen here for the first time!) ? plus dozens of pages of beautiful character sketches, as well as the requisite sketchbook section of just goofing around, all annotated by Los Bros. A wonderful gift idea for Love and Rockets fans. Black-and-white comics and illustrations throughout
