

Lenora Scheid finally seemed to have built a life for herself. After more than a century of traveling the earth to visit scenes of the dead and dying, life was finally beginning... At long last, she discovered that she was Vetala, a member of a secret race of not-exactly-vampires but not-quite humans. She saved Michael, her naliyah and soul mate, from her father, a man bent on the destruction of humanity. She reunited with her mother, a woman she hadn't seen in more than a century. But Lenora's idyllic peace lasts only a moment as she realizes that her time with Michael has left him fighting for his life. To save him, she must square off against her father and the Matriarch, an ancient organization that rules over her kind. The quest to save Michael seems to uncover more secrets than answers. With her mother and some new friends by her side, Lenora learns more about what it means to be Vetala, and what it is going to take to save her family, and humanity, from the man who raised her.
