So what makes one Nicki Minaj guest-verse better than the next? First: shade. She thrives on making subtle, backhanded statements, whether they're aimed at specific people or simply general reminders of how, ha-ha, she wins, you lose. Second: cheekiness. Nicki finds ways to use her guest verses to say things she maybe shouldn't on other people's tracks, but she does it with such endearing disregard that it's hard not to respect her. And, finally: It has to be weird. Nicki loves characters, accents, fairy tales, and pop-culture references, and she employs them expertly, either individually or all at once. *stephanie curry. amen.*
