

Alaska Tales

The stories in this collection are true. In some instances, the names have been changed to protect the innocent and the not so guiltless. With most days of the past forty-seven years spent in Alaska, the thirty-six stories in this collection are connected primarily with Jakes guiding activities in the Great Land. These stories were selected for their humorous content. This selection of tales is trivial, eclectic, and of minimal redeeming value. But there may be some valuable bits of information, if one looks for them. These stories attempt to entertain readers, to give them a giggle, or at least a wry smirk.
