

This collection of reflective essays explores spirituality and its changing relationship to culture, individual identity, and society in our increasingly globalized, postmodern world. Born out of a doctoral seminar at Pacifica Graduate Institute entitled *The God Complex*, the essays provide a personal understanding of diverse and conflicting worldviews and attitudes about religion, secularity, nature, and the purpose of human existence. With a rich range of perspectives, each offering provides a powerful testament to the interdisciplinary study of myth, religion, and depth psychology as a means for revisioning one understands of the divine.

Dr. Christine Downing, author of *The Goddess: Mythological Images of the Feminine* and *Gods in Our Midst: Mythological Images of the Masculine* A marvelous and unique collection of essays devoted to re-visioning conceptions of divinity.
