

Write Yourself a Better Life: Use the Power of the Written Word to Create the Life of Your Dreams

Write Yourself a Better Life Use the Power of the Written Word to Create the Life of Your Dreams Is it possible to write your very own fantasy script and watch it manifest into reality? I think so. Writing a new script is nothing more than making up a sparkling daydream and stepping into it with wonderful feelings. Because, at the end of the day, its our feelings that make our lives what they are. You want a better life? Write about it. You want a better job? Write about it. You want more money? Write about it. You want to meet the love of your life? Write about it. Write it and feel it the way youd want it to be if you were living your fantasy this very moment. Yes, it is possible to make your dreams come true with the power of the pen. London Tracy is an author and screenwriter.
