

Shatter Your Speed Limits: Fast-Track Your Success and Get What You Truly Want in Business and in Life

Shatter Your Speed Limits: Fast Track Your Success and Get What You Truly Want in Business and in Life tells an inspirational story of four different people who capture their dreams using a simple - but powerful - formula. Unlike traditional how-to books, this fast-reading story takes us on a stirring ride of twists and surprises as we witness first-hand the process of each persons reinvention. Through lively conversations, emails and video chats, we find ourselves rapidly entwined in their journeys as the Formula takes them in unexpected directions. With each new turn in the road, they discover precisely what they need to achieve their goals. Along the way we too uncover the missing links to our own success and to getting what we truly want-faster than we ever dreamed possible. Recommended by experts in the self-help, goal achievement, sales, healthcare, corporate, marketing, media, retail and service industries, Shatter Your Speed Limits is a catalyst for change. Step-by-step, it teaches us how to identify and break through the only three barriers that stand between where we are and where we want to be. It all begins with one question: If you woke up tomorrow morning and magically found that you had everything you truly wanted...how would your life be different?
