

38 Messages From Space: The Wilbert Smith Archives Remixed

Wilbert Smith directed Project Magnet, the Canadian governments official investigation into UFOs. In a declassified memo dated 21 November 1950, Smith writes: I made discreet enquires through the Canadian Embassy staff in Washington who were able to obtain for me the following information: a. The matter is the most highly classified subject in the United States Government, rating higher even than the H-bomb. b. Flying saucers exist. Researcher Grant Cameron studied Smith for two decades. In 2003, Cameron released The Wilbert Smith Archives on CD-ROM (<http://presidentialUFO.com>). The archives include nearly 1000 pages of scanned documents. 38 Messages from Space is a remix of selected documents from Camerons archives. While they have been retyped to improve legibility, an effort has been made to maintain the aesthetics of the originals. The documents are supplemented with my own illustrations.
